

MODI AKSHAR VISHAL

Gujarat, India | [+91-9408006867](tel:+91-9408006867) | classaxar@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science student with experience in full-stack development, backend systems, and data-driven applications using Python, JavaScript, SQL, and React. Hands-on experience in REST API integration, cloud fundamentals, and real-world data analysis through projects involving scalable web platforms and environmental data modeling. Selected as a Gemini Student Ambassador 2026, with interests in AI-driven systems, backend engineering, and applied data research.

EDUCATION

B.Tech in Computer Science & Engineering (Lateral Entry)

Institute of Computer Technology, Ganpat University | 2025 – 2028

Diploma in Information Technology

B.S. Patel Polytechnic, Ganpat University | CGPA: 7.87 / 10

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, SQL

Frontend: HTML, CSS, React, Responsive UI Design

Backend & Databases: Node.js, Express.js, REST APIs, SQL, Database Design

Data Analysis: Pandas, NumPy, Matplotlib

Core CS: Data Structures, OOP, Problem Solving

Cloud & Tools: AWS Fundamentals (S3, EC2), Git, GitHub, Linux, Vercel

PROJECTS

- CareerBridge — Professional Networking & Job Portal Platform** | React, Node.js, Express.js
 - Developing a full-stack networking and job portal platform with separate onboarding flows for interns, professionals, and senior citizens
 - Built responsive recruiter and job-seeker interfaces with React and integrated RESTful APIs using Express.js
 - Implemented modular architecture, global state management, and deployed the platform on Vercel
 - Live Demo: careerbridge-eosin.vercel.app
 - GitHub: github.com/classaxar/careerbridge

2. **Forest Cover & CO₂ Emissions Analysis** | Python, Pandas, NumPy, Matplotlib
 - Processed and analyzed 20+ years of World Bank environmental data using Python
 - Cleaned and transformed datasets using Pandas and NumPy for analysis
 - Applied statistical techniques such as correlation analysis and moving averages
 - Identified correlation trends between forest cover decline and rising CO₂ levels using 20+ years of data
 - Analyzed environmental datasets to identify long-term sustainability and emission trends
 - GitHub: <https://github.com/classaxar/india-forest-co2-analysis>
3. **Nova AI Assistant** | Python
 - Developed a basic AI assistant using language model APIs for text-based interaction
 - Implemented prompt handling and response generation logic
 - Designed simple interface for user interaction
 - Explored integration of AI capabilities into applications
 - GitHub: github.com/classaxar/Nova-AI-Assistant

LEADERSHIP & CAMPUS ENGAGEMENT

Gemini Student Ambassador — Google (2026 – Present)

- Selected for the Gemini Student Ambassador Program 2026 focused on AI tool adoption and student engagement initiatives
- Working on community-driven activities and practical AI use-cases related to productivity, coding, and digital workflows
- Collaborating on campus-level initiatives to promote AI-assisted learning and technology awareness

EXPERIENCE

Technical Support — Gujarat Forest Department (Vibrant Gujarat Event)

- Managed and structured digital records with focus on efficient data organization and accessibility
- Supported structured data handling and operational coordination during a large-scale government event
- Coordinated with cross-functional teams to ensure smooth execution

CERTIFICATIONS & VIRTUAL EXPERIENCE

- **McKinsey Forward Program** — McKinsey & Company (2026) *(Certificate pending)*
- [AWS Academy Graduate – Cloud Foundations — Amazon Web Services](#)
- [Software Engineering Virtual Experience — JPMorgan Chase & Co. \(Forage\)](#)
- [Python for Data Science — IBM](#)
- [Data Science Essentials — Cisco](#)
- [Research Writing Excellence Workshop — Ganpat University](#)
