

MODI AKSHAR VISHAL

Gujarat, India | [9408006867](tel:9408006867) | classaxar@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

EDUCATION

B.Tech in Computer Science & Engineering (Lateral Entry)

Institute of Computer Technology, Ganpat University | 2025
– Present

Diploma in Information Technology

B.S. Patel Polytechnic, Ganpat University | CGPA: 7.87 / 10

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, SQL

Frontend: HTML, CSS, React, Responsive UI Design

Backend & Databases: Node.js, Express.js, REST APIs, SQL, Database Design

Data Analysis: Pandas, NumPy, Matplotlib

Core CS: Data Structures, OOP, Problem Solving

Cloud & Tools: AWS Fundamentals (S3, EC2), Git, GitHub, Linux, Vercel

AI & RESEARCH INTERESTS: Generative AI, Machine Learning, Data Science, Natural Language Processing, Data Analytics

PROJECTS

CareerBridge — Professional Networking & Job Portal Platform | React, Node.js, Express.js

- Developing a full-stack networking and job portal platform for interns, professionals, and senior citizens.
- Built responsive recruiter and job-seeker interfaces and integrated REST APIs.
- Implemented modular architecture and deployed the platform on Vercel.
- [GitHub](#) | [Live Demo](#)

Environmental Data Analysis: Forest Cover and CO₂ Emissions Trends | Python, Pandas, NumPy, Matplotlib

- Analyzed 20+ years of World Bank environmental datasets using Python.
- Performed data cleaning, transformation, correlation analysis, and trend analysis on sustainability indicators.
- Investigated relationships between forest cover decline and CO₂ emissions through statistical analysis and visualization.
- Published project code and findings on [GitHub](#)

Nova AI Assistant | Python

- Developed an AI-powered assistant leveraging language model APIs for natural language interaction.
- Designed prompt handling and response-generation workflows for user-facing applications.
- Explored practical applications of generative AI in software systems.
- [GitHub](#)

LEADERSHIP & CAMPUS ENGAGEMENT

Google Student Ambassador | Google (2026 – Present)

- Selected for Google's Student Ambassador Program.
- Promoting AI adoption, digital productivity, and AI-assisted learning through community initiatives.

EXPERIENCE

Machine Learning Intern | AcmeGrade — Rendezvous, IIT Delhi (Jun 2026 – Jul 2026)

- Completed project-based Machine Learning training, applying ML concepts and workflows to practical problem-solving tasks. [Certificate](#)

Technical Support | Gujarat Forest Department (Vibrant Gujarat Event)

- Managed digital records and supported structured data organization.
- Assisted operational coordination and collaborated with cross-functional teams during a large-scale government event.
